About

I'm a fresh graduate in Informatics Engineering with experience in mobile development using Flutter. Before and during my studies, i worked on projects through internships, freelance work, and full time role. I enjoy learning new technologies, solving practical problems, and building mobile applications that are reliable and user friendly.

Education

2021 - 2025 ● Informatics Engineering ,Universitas Komputer Indonesia

Studying at Universitas Komputer Indonesia majoring in Informatics Engineering

2017 - 2020 ● Vocational School

Studied Bandung 4 State Vocational High School

Experience

● **Wit Indonesia**

Internship | Mobile Developer | August 2024 - November 2024
